Timeline 1 & 2 submission

Wednesday, September 9:

We gave each person a role and talked about how we were going to work on the project.

Thursday, September 10:

We worked on the code and got about halfway done. Also created the Flowchart.

Friday–Sunday, September 11–13:

We continued working on the code and finished it.

Monday, September 14:

We went through the code, added comments, and finished the pseudocode.

Tuesday, September 15:

We looked over the code again, fixed anything that needed to be fixed, and finalized the project.

Wednesday, September 16:

We met with the professor and presented our code. He gave us some feedback and ideas for things we could add to the project.

Thursday , September 17:

We made necessary changes in the code. Updated the timeline, Workflow and pseudocode and uploaded it to GitHub.

Monday, October 12

We came up with ideas for the code and talked about the extra features we wanted to add.

Friday, October 16

We were about halfway done with the first draft of our code.

Sunday, October 19

We finished the first draft of the code.

Wednesday, October 21

We talked to the professor about our ideas, and he checked on our progress.

Sunday, October 25

We finished the code and started adding comments.

Monday, October 26

We finished the pseudocode and flowchart.
